VICON

# The **NXVA™** V1422 Multi-Trans

Vicon's all-new V1422 changes everything you know about CPU-based control and matrix switcher with an unrivaled RS-422 or coaxial connections, making it the most t

- 32 video inputs by 8 monitor outputs
- Extensive tour sequence of 64 pan/tilt tours of 32 steps each
- On-screen menus and built-in self diagnostic routines

○ Coaxial cable for video transmission

○ Twisted pair for RS-422 data transmission

○ Receiver can be RS-422 or coaxial type

**SURVEYOR<sup>99</sup>**

**VISTAR™**

Twisted pair for longer runs here

Only one unit  
Use Vicon's

Vicon's M

# Transmission Switcher/Controller

Without matrix systems. It's a self-contained, full-featured  
matched ability to control PTZ camera stations through  
flexible matrix system available.

Coaxial cable  
transmits  
both data and  
video

SURVEYOR<sup>SM</sup>

Twisted pair not  
needed here - use  
coaxial cable only

- ✗ ProTech PC programming software included
- ✗ The perfect answer to upgrading existing systems
- ✗ Operation of both RS-422 or coaxial camera stations is completely transparent to the user

For system upgrades, existing fixed camera stations are easily upgraded to PTZ stations without additional cable runs.
